

# SAFETY DATA SHEET

Version: 6  
Date: November 5, 2017

## 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND THE COMPANY/SUPPLIER

<b>PRODUCT IDENTIFIER</b>	<b>IronFix™</b>
<i>Other Means of Identification:</i>	Metal Binder
<i>Manufacturer's Name:</i>	Integrity Industries, LLC
<i>Manufacturer's Address:</i>	2710 East Corral Kingsville, TX 78363 USA
<i>24-HOUR Emergency Telephone Number:</i>	<b>Call CHEMTREC Day or Night (USA or Canada)</b> <u>1-800-424-9300 / +1 703-527-3887</u>
<i>Recommended Use:</i>	Metal Binder
<i>Restrictions on Use:</i>	None.

## 2. HAZARDS IDENTIFICATION

<b><u>CLASSIFICATION</u></b>	
<i>Physical Hazards:</i>	None.
<i>Health Hazards:</i>	None.
<i>Environmental Hazards:</i>	None.
<b><u>LABELING</u></b>	
<i>Signal Word:</i>	None.
<i>Hazard Statements:</i>	None.
<i>Symbols/Pictograms:</i>	None.
<b><u>PRECAUTIONARY STATEMENTS</u></b>	
<b><u>PREVENTION</u></b>	
None.	
<b><u>RESPONSE</u></b>	
None.	

# SAFETY DATA SHEET

Version: 6  
Date: November 5, 2017

<p><b><u>STORAGE</u></b></p> <p>None</p> <p><b><u>DISPOSAL</u></b></p> <p>None</p>
--

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

<b><u>COMPOSITION INFORMATION</u></b>			
<b><u>Chemical Component</u></b>	<b><u>CAS Registry Number</u></b>	<b><u>Concentration (w/w%)</u></b>	<b><u>Pure Substance GHS Classification</u></b>
N/A	N/A	N/A	N/A

**NOTES ON COMPOSITION INFORMATION:**  
\*Only hazardous chemical components are disclosed.

## 4. FIRST AID MEASURES

<i>Skin Contact:</i>	Wash with plenty of water, then with soap and water for 15 minutes. Seek medical attention if exposed to large quantities, if contact is prolonged, or if exposure causes more than minor discomfort. Discard contaminated clothing and shoes.
<i>Eye Contact:</i>	Immediately flush eyes with a continuous water stream for at least 20 minutes. Washing immediately after exposure is expected to be effective in preventing damage to the eyes. Seek medical attention.
<i>Inhalation:</i>	If small amounts of this product are inhaled, specific treatment is generally not expected to be necessary. If exposed to excessive levels, if contact is prolonged, or if exposure causes adverse symptoms, move person to fresh air and seek medical attention.
<i>Ingestion:</i>	In case of accidental overdose/over-ingestion, seek medical attention or contact a poison control center immediately. Do not induce vomiting. Dilute by giving 1 or 2 glasses of milk or water. Nothing by mouth if unconscious. Seek medical attention.
<i>Most Important Symptoms/Effects:</i>	None.
<i>Indication of Immediate Medical Attention and Special Treatment:</i>	If exposure to this product causes adverse effects, seek immediate medical attention. Conditions should be treated symptomatically.

5. FIRE FIGHTING MEASURES	
<i>Flash Point:</i>	Not Flammable
<i>Flammable Limits:</i>	No applicable information available.
<i>Autoignition Temperature:</i>	No applicable information available.
<i>Explosion Data:</i>	No applicable information available.
<i>Suitable Extinguishing Media:</i>	Use dry chemical, foam, carbon dioxide, water spray/fog when fighting fires involving this product. Synthetic or protein foams may be used, but may not be as effective.
<i>Special Protective Equipment and Precautions for Fire Fighters:</i>	Wear a self-contained breathing apparatus pressure demand (NIOSH approved or equivalent) and full protective gear. Toxic vapors may evolve. Fight fires from a safe distance or protected areas. Fire hoses with fog nozzles may be used for controlling fires but care must be exercised not to spread flaming. Use of large volumes of water may produce run-off that may be toxic to aquatic life and/or pose a hazardous waste disposal problem. Water may not be as effective for large fires.
<i>Specific Hazards Arising from the Chemical or Mixture:</i>	None.
<i>Hazardous Combustion Products:</i>	Thermal decomposition may generate toxic vapors.
<i>Other Information:</i>	<u>See</u> Section 7 for additional information.

6. ACCIDENTAL RELEASE MEASURES	
<i>Personal Precautions, Protective Equipment, and Emergency Procedures:</i>	Wear appropriate personal protective equipment during any cleanup and response activities as described in Section 8.
<i>Methods and Materials for Containment and Clean Up:</i>	Dike and contain spill with absorbent materials.
<i>Other Instructions:</i>	Do not release of this product or waste streams containing this product to water or the environment. In the event of an uncontrolled release of this material, the user should determine if the release is reportable under applicable laws and regulations.

7. HANDLING AND STORAGE	
<i>Precautions for Safe Handling and Storage:</i>	<p>Keep away from fire, heat, open flames, lights, and ignition sources. Wear goggles and gloves when handling. Avoid breathing vapors.</p> <p>Eye-wash stations and emergency showers need to exist in areas where the material is handled, especially areas where loading and unloading operations occur. Wash hands thoroughly after handling and before eating, drinking, or smoking. Keep out of reach of children. Ground all containers when transferring material.</p> <p>Do not contaminate water, food, or feed by storage or disposal. Keep the product in original containers. Store in cool, dry, well ventilated, low fire risk area away from sunlight. Keep containers closed. Store only in approved containers, under approved conditions. Avoid pressure build-up in containers. An automatic water spray device should be immediately available. A spill control and containment plan should be developed. Storage area should not be subject to rapid temperature changes as such changes may cause increased internal pressure. Isolate from toxic materials or substances that may release corrosive, toxic, or flammable fumes on reaction.</p>
<i>Other Precautions and Information:</i>	None.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION	
<i>Eye/Face Protection:</i>	Chemical safety goggles meeting the specifications of ANSI Standard Z87.1 are to be worn whenever there is the possibility of contact with the eyes. Spectacle type safety glasses <u>do not</u> provide satisfactory protection. An eyewash fountain should be readily accessible. Wear plastic face shield in addition to safety goggles where there is a danger of splashing.
<i>Protective Gloves:</i>	Wear chemical resistant gloves appropriate to the conditions to prevent dermal exposure. Rinse and remove gloves immediately after use, and wash hands thoroughly with soap and water. Gloves should be removed and replaced immediately if there are any signs of degradation or breakthrough.
<i>Protective Clothing:</i>	Wear chemical resistant protective clothing and footwear impervious to the product for the duration of the anticipated

	exposure if there is a potential for skin contact. An emergency shower should be readily accessible. Discard any contaminated clothing.
<i>Respiratory Protection:</i>	Wear adequate respiratory protection in the case where there is a potential for inhalation exposure during use or handling operations. Respirators equipped with organic vapor cartridges are anticipated to provide adequate respiratory protection during short-term exposures to low vapor concentrations of the product. Workers should wear a supplied-air respirator or self-contained breathing apparatus any time exposure is above low levels or during extended exposure periods. Use NIOSH approved respiratory equipment. Respirators should be selected based on the form and concentration of the contaminant in the air and in accordance with OSHA (29 CFR 1910.134). Handle only in the presence of adequate ventilation.
<i>Engineering Controls:</i>	Good general ventilation should be sufficient to control low airborne levels of the product. If the product is present above low levels, local exhaust or other measures may be necessary to control worker exposure. Engineering controls may be necessary during heating operations where irritating vapors may evolve or be released.
<i>Air Monitoring:</i>	There is no air monitoring information available for this product.
<b><u>EXPOSURE LIMITS AND GUIDELINES</u></b>	
<b><u>NOTES ON EXPOSURE LIMITS AND GUIDELINES:</u></b>	
NE = Not established.	

9. PHYSICAL AND CHEMICAL PROPERTIES	
<i>Appearance/Physical State:</i>	Clear to Yellow to Orange/Red to Brown Liquid (This product changes color over time from Clear to Lt. Brown. Color change does not affect performance)
<i>Odor:</i>	Mild odor
<i>Odor Threshold:</i>	No applicable information available
<i>pH:</i>	0.5 – 3.0
<i>Freezing Point:</i>	- 1° C
<i>Pour Point:</i>	2° C

<i>Boiling Point:</i>	100.0° C
<i>Flash Point:</i>	Not Flammable
<i>Evaporation Rate:</i>	No applicable information available
<i>Flammability:</i>	Not Flammable
<i>Flammability Limits:</i>	No applicable information available
<i>Vapor Pressure:</i>	Similar to water
<i>Vapor Density:</i>	Similar to water
<i>Relative Density/Specific Gravity:</i>	1.04 ± 0.02 (25°C)
<i>Solubility in Water:</i>	Miscible
<i>Octanol/Water Partition Coefficient:</i>	No applicable information available
<i>Auto-ignition Temperature:</i>	No applicable information available
<i>Decomposition Temperature:</i>	No applicable information available
<i>Viscosity:</i>	No applicable information available
<i>Color (Gardner):</i>	No applicable information available
<i>Refractive Index:</i>	No applicable information available

## 10. STABILITY AND REACTIVITY

<i>Reactivity:</i>	There are no specific reactivity hazards.
<i>Chemical Stability:</i>	Stable under normal conditions.
<i>Possibility of Hazardous Reactions:</i>	Hazardous reactions are not expected under normal conditions.
<i>Conditions to Avoid:</i>	Avoid heat, fire, open flames, direct light, and ignition sources.
<i>Incompatible Materials:</i>	Avoid contact with strong acids, strong bases, and oxidizing agents.
<i>Hazardous Decomposition Products:</i>	Hazardous decomposition or byproducts are not expected under normal conditions.
<i>Hazardous Polymerization:</i>	This product will not undergo hazardous polymerization.

<i>Other Information:</i>	<u>See</u> Section 7 for further information.
---------------------------	---

11. TOXICOLOGICAL INFORMATION	
<i>Routes of Exposure:</i>	Exposure to this product (including its vapors) may occur through the eyes, skin, ingestion, and inhalation.
<i>Acute Toxicological Data:</i>	There are no acute toxicological data on this product. Based on the data of the individual components, the acute toxicity of this product is expected to be low.
<i>Eye Irritation Data:</i>	There are no eye irritation data on this product. Based on the data of the individual components, this product is not expected to cause eye irritation.
<i>Skin Irritation/Sensitization/Absorption Data:</i>	There are no skin irritation data on this product. Based on the data of the individual components, this product is not expected to cause skin irritation. Absorption through the skin is not expected to occur. This product is not expected to cause skin sensitization.
<i>Subchronic Toxicity Data:</i>	There are no subchronic toxicity data on this product. Based on the data of the individual components, the subchronic toxicity of this product is expected to be low.
<i>Reproductive Toxicity Data:</i>	There are no reproductive toxicity data on this product. Based on the data of the individual components, this product is not expected to present a reproductive toxicity hazard.
<i>Teratogenicity (birth defects) Data:</i>	There are no teratogenicity data on this product. Based on the data of the individual components, this product is not expected to present a teratogenicity hazard.
<i>Mutagenicity Data:</i>	There are no mutagenicity data on this product. Based on the data of the individual components, this product is not expected to present a mutagenicity hazard.
<i>Chronic/Carcinogenicity Data:</i>	<p>There are no chronic effects or carcinogenicity data on this product. Based on the data of the individual components, this product is not expected to present a chronic or carcinogenicity hazard.</p> <ul style="list-style-type: none"> <li>· NTP: Not listed</li> <li>· IARC: Not listed</li> <li>· OSHA: Not listed</li> </ul>

# SAFETY DATA SHEET

Date: November 5, 2017

12. ECOLOGICAL INFORMATION	
<i>Ecotoxicity Data:</i>	There are no ecotoxicity data on this product.
<i>Persistence and Degradability:</i>	There are no persistence or degradability data on this product.
<i>Bioaccumulative Potential:</i>	There are no bioaccumulation data on this product.
<i>Mobility in Soil:</i>	There are no soil mobility data on this product.
<i>Other Adverse Effects:</i>	No applicable information available.

13. DISPOSAL CONSIDERATIONS	
<i>Waste Classification:</i>	Dispose as a solid waste in conformance with all federal, state, and local regulations. All recovered material must be packaged, labeled, transported, and disposed in conformance with applicable laws and regulations. It is the responsibility of the user to determine at the time of disposal whether a material containing the product or derived from the product should be classified as a solid or hazardous waste.
<i>U.S. EPA Waste Number:</i>	No applicable information available.
<i>Special Instructions:</i>	None.

14. TRANSPORT INFORMATION	
<u>U.S. DOT</u>

<b>15. REGULATORY INFORMATION</b>	
<i>TSCA Inventory Status:</i>	<u>All intentional substances contained in this product are listed on the Toxic Substances Control Act (TSCA) Chemical Substance Inventory. This product contains no substances specifically regulated under TSCA.</u>
<i>OSHA:</i>	This product is not considered to be hazardous under the OSHA Hazard Communication Standard.
<i>Waste Classification:</i>	Dispose as a solid waste in conformance with all federal, state, and local regulations. All recovered material must be packaged, labeled, transported, and disposed in conformance with applicable laws and

	regulations. It is the responsibility of the user to determine at the time of disposal whether a material containing the product or derived from the product should be classified as a solid or hazardous waste.
<i>EPCRA/SARA III:</i>	This product contains no toxic chemicals at or above the <i>de-minimis</i> threshold subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR 372.
<i>California Proposition 65:</i>	This product contains no chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

16. OTHER INFORMATION	
<i>Label Text:</i>	<u>See</u> Section 2 and product labeling.
<i>Disclaimer:</i>	The information provided in this Safety Data Sheet is correct to the best of our knowledge, information, and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
